

# Paint dipped card

## The workbench

- 4lt ice cream container
- Cardboard (fold into equal halves)
- Oil based paint
- Paint brush
- Envelope
- Mineral turpentine
- Plastic gloves (optional)

**Note to parents:** this activity requires strict adult supervision and help. It is advised that young children not be left unattended during the course of this activity.

### **Step 1.**

Fill ice cream container full of water then dip the paint brush into the paint and drizzle oil paint over the water but do not stir it.

### **Step 2.**

Holding the card on one side lie it flat on top of the water for 1-2 seconds, do not submerge the card under the water, then remove immediately and lay flat to dry for 24-36 hours.

### **Step 3.**

Dip the envelope corner into the paint filled water (refer to the picture) and allow 24-36 hours to dry before sending it to your favorite person with a special message inside.
