

Tall, long, huge hat

The workbench

- Poster paint (non toxic)
- Steel wool
- Glitter
- Clag
- Feathers
- Fine Tinsel string
- Thick white cardboard
- Stapler
- Paper plate
- Balloon

Step 1.

Paint and decorate the cardboard with poster paint and glitter using the steel wool or a paintbrush. Wrap the cardboard around the child's head and measure a close fit, staple it into place to form a cylinder.

Step 2.

Cut the center out of the paper plate so only the outside section is left and then staple it to the hat at the bottom. Make sure the staple ends are on the outside of the hat or it will scratch the child's head. Glue on some glitter to decorate.

Step 3.

Staple the tinsel string at the bottom of the hat then wrap around the hat until you finish up at the top, then secure with a staple. Blow up a balloon to fit snugly into the top of the hat and push it in gently. Tie some feathers to the end of the balloon to finish the hat off, before trying it on and walking tall.
