

Nail game

The workbench

- Wood (pine, MDF, chipboard) any shape and size
- 1 packet colored elastic bands varied sizes
- 1 packet of bullet head nails 1 inch long
- Poster paint (non toxic)
- Paint brush
- Glitter
- Sequins (optional)
- Hammer

Step 1.

Paint the wooden board.

Step 2.

While the paint is still wet stick on some sequins and glitter to decorate. Dry

Step 3.

Hammer nails all over the wood, then use the elastic bands to make patterns shapes and names.

Note to parents: for younger children, hammer the nails in just enough to stand up then allow your child to hammer for a few extra hits, it is great for hand eye co-ordination. Safety goggles are advised, to put onto children whether hammering or not to protect their eyes from stray nails.
