

Christmas stars

The workbench

- Colored icy pole sticks (4 sticks make 1 decoration)
- Glue brush
- Wood glue
- Glitter
- Pom poms small
- Wire with stars attached.
- Clear sticky tape

Step 1.

Paste some glue onto the tops of the icy pole sticks then sprinkle on the glitter (refer to the picture). Place some glue onto the back of the icy pole sticks in the middle and glue them onto the top of the previous sticks to make a star shape.

Step 2.

Glue a pom pom onto the center of each star and set aside to completely dry.

Step 3.

Cut 10cm lengths of the wire stars. Bend the wire in half and attach both of the ends to the stars using the sticky tape. Decorate your Christmas tree or thread through some string to hang across the room.
