

Foam Christmas tree

The workbench

- Green and yellow poster paint (non toxic)
- Multi colored glitter
- Paint brush
- Cone shaped foam
- Colored matchsticks
- Fine green tinsel
- 1 green pipe cleaner
- Small foam star
- Craft glue

Step 1.

Paint the cone foam green then roll it into the glitter to get a good coverage.

Step 2.

After the paint has dried, push and twist the matchsticks in all over the foam cone then starting from the top of the cone, glue on the tinsel all around the cone until you have reached the bottom.

Step 3.

Paint the foam star yellow and sprinkle with glitter, then push in a 5cm piece of pipe cleaner into the bottom of the star, before pushing the other end into the top of the Christmas tree.
